SPECIAL ABBREVIATION

M1 make a st: pick up the horizontal strand lying between the sts and k into the back of it, twisting it.

The yarn amounts stated are based on average requirements and are therefore approximate.

TENSION 14 sts and 20 rows to 10 cm, 4 in, over st-st on 6mm needles or the size required to give the correct tension. 16 sts and 20 rows to 10 cm, 4 in, over k2, p2 rib patt on 6mm needles or the size required to give the correct tension. 14 sts and 28 rows to 10 cm, 4 in, over g-st stripe patt on 6mm needles or the size required to give the correct tension.

It is essential to work to the stated tension to ensure the correct size of garment and you should always knit a tension square.

If there are less sts and rows to 10 cm, 4 in, change to finer needles if there are more sts and rows to 10 cm, 4 in, change to larger needles.

Instructions are given for the first, smallest size. Larger sizes are given in square brackets. Where only one figure is given, this applies to all sizes. Where the figure 0 appears, no stitches, times, or rows are worked for this size.

Although every effort has been made to ensure that instructions are correct, Stylecraft cannot accept any liabilities.

Stylecraft cannot accept responsibility for the result of using any other yarn. Owing to photography and printing restrictions the colour reproduction is matched as closely as possible to the yarn.
