

OEKO-TEX

For the below mentioned yarns, Stylecraft confirm that our manufacturers hold either OEKO TEX Standard 100 Class 1, Annex 4 or 6 certificates:

Yarn Name	Certificate Type	Certificate number and Expiry Date
Special	OEKO TEX Standard 100 Class 1, Annex 6	1706027 30 th June 2024
Naturals – Bamboo + Cotton	OEKO TEX Standard 100 Class 1, Annex 4	IS005 185287 1 st July 2024
Naturals – Organic Cotton	OEKO TEX Standard 100 Class 1, Annex 4	IS005 185287 31 st July 2024
Bellissima	OEKO TEX Standard 100 Class 1, Annex 6	16.HTR.77775 31 st March 2024
Bambino	OEKO TEX Standard 100 Class 1, Annex 6	16.HTR.77775 31 st March 2024

To receive an OEKO TEX certificate the yarn has to be REACH compliant.

All our suppliers have confirmed that they do not use Flame Retardants or Bisphenol A (BPA).

EN71-3 (2019) + A1 (2021)

The following yarns have been tested for the above standard and found to be compliant. Copies of the certificate for these can be found on our website.

Special (excluding Special Aran with Wool and Special XL Tweed which have not been tested), Bambino, Bellissima, Naturals – Bamboo + Cotton, Naturals - Organic Cotton

Whilst we have contacted our suppliers to ensure that they are OEKO TEX compliant, this certification is for our yarn only. It is correct for a product that is solely knitted or crocheted. If you change the form of the product, for example, by making it into a toy where it could have items such as stuffings and trimmings or embellishments added then you may have different rules and regulations with which you have to comply. Compliance under these circumstances is strictly your responsibility and not ours.
